There will be an Ice Cream Supper at the head of Wood street on Forest avenue, Sixth Ward, Saturday night, August 1st, for the benefit of Mitchell's Chapel, of which everybody is cordially invited.

The case of Early Shoetall, charged with shooting Martin McDonough, was called before Judge Hutchins yesterday and continued until August 11th, on account of McDonough's inability to attend.

My little boy, when two years of age, was taken very ill with bloody flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and luckily procured part of a bottle. I carefully read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the Remedy half its worth. I am sorry every one in the world does not know how good it is, as I do.

Mrs. Lina S. Hinton, Grahamville, Marion Co., Florida. For sale by J. Jas. Wood, Druggist.

Mrs. Parker was far above the ordinary in intelligence. He was born in New Orleans of well-to-do parents 53 years ago, his father being, we believe, a ship-owner and of New England Puritan stock.

While quite young deceased went East, and when the gold discoveries were made in California he with a number of other adventurous spirits organized a party to cross the plains and seek fortune in the new El Dorado.

The party encountered and compassed many dangers, being once rudely attacked by an army of Mormons, at whose hands it suffered great loss. Finally Parker reached California, where he settled down to business, was happily married and had two children.

During a business trip East he had occasion to wire his bank for \$4,000; which was his astonishment when he learned that his partner had sold out the entire concern, exhausted the bank account and left for parts unknown; and to this day Mr. Parker had never heard from him.

Closely following up the heels of this misfortune his wife and children died; and so far as known by his intimates the man who now lies dead at the undertaking rooms of McJannet & Humphreys leaves not a relative on earth.

Burning under sufferings at the hands of the Mormons in his early life, Mr. Parker traveled 5,000 miles to witness the shooting of Bishop Lee of that sect when the latter was condemned to death for his murderous acts.

HAS A HISTORY.

A Remarkable Man Who Died in a Humble Room.

For three years past Mr. H. B. Parker has been in the employ of the Mayville Cotton Mills, having previously been known to Superintendent Scott.

He was taken ill a few days ago, and last evening he died in a small lodging where he lived alone. But there were stranger friends about his humble couch when he passed away.

Mr. Parker was far above the ordinary in intelligence. He was born in New Orleans of well-to-do parents 53 years ago, his father being, we believe, a ship-owner and of New England Puritan stock.

While quite young deceased went East, and when the gold discoveries were made in California he with a number of other adventurous spirits organized a party to cross the plains and seek fortune in the new El Dorado.

The party encountered and compassed many dangers, being once rudely attacked by an army of Mormons, at whose hands it suffered great loss. Finally Parker reached California, where he settled down to business, was happily married and had two children.

During a business trip East he had occasion to wire his bank for \$4,000; which was his astonishment when he learned that his partner had sold out the entire concern, exhausted the bank account and left for parts unknown; and to this day Mr. Parker had never heard from him.

Closely following up the heels of this misfortune his wife and children died; and so far as known by his intimates the man who now lies dead at the undertaking rooms of McJannet & Humphreys leaves not a relative on earth.

Burning under sufferings at the hands of the Mormons in his early life, Mr. Parker traveled 5,000 miles to witness the shooting of Bishop Lee of that sect when the latter was condemned to death for his murderous acts.

It would be impossible within the scope of a newspaper article to give even an outline of this man's remarkable life.

Mr. Parker was a member of the Masonic fraternity, and they have taken charge of the remains.

The funeral will occur tomorrow afternoon at 4 o'clock, and the interment will be in the Masonic lot at the Mayville Cemetery.

The officers of both Lodges request that the members meet at Masonic Temple at 3:30 o'clock promptly.

The new \$1 silver certificates just issued from the Treasury have been called in on account of the misspelling of the word "tranquility." Better hire a good proof reader at headquarters. What's the matter with the Civil Service examination?

READY FOR WORK.

Secretary Canfield of the Y. M. C. A. on the Ground.

We announce to our citizens with a feeling of pride the advent to us of Mr. J. C. Canfield, who is to be General Secretary of the Local Young Men's Christian Association. He is a gentleman of practical knowledge, executive ability and of characteristics which make him a man peculiarly well fitted to discharge the arduous duties devolving upon one who leads in beneficent work, human helps and Godly generalship. We welcome him sincerely and genuinely, and we feel safe in making the assertion that once the institution known as the Y. M. C. A. is fully established and in working order no inducement could be brought to bear which would have us, as a city, forfeit its influence, or give up its aid.

It requires the united support of all citizens to have the good of our city at heart. Enthusiasm and energy must be found in hand and a rallying of honest principles are necessary to push forward the efforts of the General Secretary.

The erection of an all-round organization means a quick and decided move, having for its ultimate gain the moral, physical and spiritual betterment of every citizen, thus practically shutting off every avenue of wrong.

FINAL TRIBUTE.

Funeral at Aberdeen of the Late James H. Cheesman.

Peculiarly sad was the death of Mr. James Helm Cheesman which occurred in Cincinnati on Thursday last, mention of which was chronicled in THE LEDGER at the time. The sudden and sorrowful news reached his family with such force as to daze the mind and almost crush the hearts of those of his household. His devoted mother sits shrouded in gloom, the darkness of which even loving sympathy and thoughtful deeds of many, many true friends cannot penetrate.

In the first flush of young and vigorous manhood, a constitution apparently built to weather all the storms of man's allotted years, he bled for life until the silver age had frosted head and bowed the frame of iron. But God's ways are not our ways, and so at 22 the handsome, genial, cordial-mannered fellow is cut down even when the wine of life was sweetest in his lips.

Mr. Cheesman was for several years a trusted employee of the L. and N. Railroad in this city. Several months ago he moved to Cincinnati, where he had charge of the joint ticket office of the C. and O. and L. and N. Railroads, Fourth and John streets. Wherever known he numbered his acquaintances as friends, so frank, cheerful and happy in nature and disposition was he. Among the social set of our city he was a great favorite, and to his friends and companions his death falls as a sting most keenly felt and long remaining. To his good mother, sadly bereaved brothers and sister we extend the consolation which friendship pays to those who are in trouble. May God pour into their hearts, by the hand of faith, the balm of His Holy Spirit. May His love overshadow them, and may the sun light of charmed remembrance so possess their hearts and minds that no sad sting of bereavement can linger round their future walk in life.

This morning at 9 o'clock the funeral rites were said, the office for the burial of the dead set forth in the Book of Common Prayers being used, after which the body of James Helm Cheesman was lovingly, gently borne by six young friends, who walked his intimates in life's happiest days, to pretty Charter Oak Cemetery, where it was consigned to the narrow home, where the slumber of death shall hold him till that great day when the trumpet shall sound and the dead shall be raised incorruptible to join Him, who shall announce the end of time and make up his debt to inherit the blessings of eternity.

With Nearly Forty Years

Of successful experience in the manufacture of Watch Movements and Watch Cases, and with the mechanical knowledge gained in the construction of special machinery and tools necessary for the manufacture of watches, we have reason to believe that no factory in the world is better able to produce a bicycle of superior design and workmanship. Our machinery is the finest and most modern in existence. Our workmen are trained to a greater degree of accuracy than is usually observed in any bicycle factory. Where is the bicycle factory that is capable of producing a machine made equal to a Duerber-Hampden Watch or machinery required to manufacture same?

These Bicycles, as well as a full line of the Duerber-Hampden Watches, can be seen at

RUGGLES CAMPGROUND, July 30th.

Editor Ledger: On Wednesday evening the Association met and elected the old Board of Directors—L. M. Lane, John G. Brodt, Isaac Kelley and M. A. Walbridge. Thursday morning prayer service was led by Bro. Seaman. The 9 o'clock was led by L. M. Lane, and it was well attended and full of spirit. The 10 o'clock service was filled by the Epworth League and the following program was rendered:

Singing.

This was something new for the Campground and it was rendered with the best effect. Joseph Easton did himself credit by his remarks on the study of the Bible.

Tomorrow (Friday) the Junior League, or little girls, give us an entertainment. Joseph Easton led the Children's Service at 1:30 o'clock.

Mothers' Prayer-meeting was well attended at 2:30 and is becoming more and more interesting.

At 7:30 Rev. Thomas Hanford preached one of his able sermons from the text Mark 6th and 3d, to which the congregation listened with the most intense interest, and the music was soft-stirring and sweet, because Prof. Crabbe put his very soul into it and made the people sing.

"Act today or weep tomorrow: Who delays is friend to sorrow."

Ennis Travis, charged with petit larceny, was held to the Grand Jury in \$100.

Six weeks ago I suffered with a very severe cold, was almost unable to speak. My friends all advised me to consult a physician. Noticing Chamberlain's Cough Remedy advertised in The St. Paul Volks Zeitung I procured a bottle, and after taking it a short while was entirely well. I now most heartily recommend this remedy to anyone suffering with a cold. Wm. Keil, 678 Selby Ave., St. Paul, Minn. For sale by J. Jas. Wood, Druggist.

WE'RE FOR AMERICANS!

Advance Agent of Prosperity
The Colorado Republican Executive Committee has read all BRYAN supporters out of the party. Here in Kentucky the larger portion of true Democrats have read themselves out of the Populist party.
At the November election, 1895, the great Populist party cast just 40 votes in Mason county; and 19 of these were cast at Dover. The total vote for Governor was 4,430. Gehwiz! what a "wath" the whiskeys will cut this fall!
THERE are about 50,000,000 silver dollars in circulation and \$75,000,000 coined and ready for use, which the Government would be glad to put in circulation, but cannot. And yet, says The Philadelphia Ledger, some people think all that this country needs to make it happy is plenty of silver dollars.
WHEN the workmen and others contend that free silver coinage will make money plentiful, and hence make times better, say The New York World, they forget the experience from 1890 to 1893 under the Sherman silver purchase inflation act. Within three years over \$150,000,000 of Treasury notes were added to the circulation. This was equal to the full capacity of the mints to coin silver dollars. And yet money grew harder to get and more difficult to use profitably during the whole of this period, and the inflation precipitated the panic.
A MAN may get a meal in Mexico, and when he puts down an American dollar in payment will get back as change a Mexican dollar, which contains six grains more silver than our own. He gets a demonstration of the fact that it is the credit of our Government which keeps the silver dollar about at 47 cents more than its intrinsic value, just as it keeps its paper notes, which have no intrinsic value at all, at an equality with a gold dollar. "Free, unlimited and independent coinage at 16 to 1" would mean dollars worth even less than Mexican silver dollars.
Cataract Cannot be Cured
with Local Applications, as they cannot reach the seat of the disease. Cataract is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Cataract Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Cataract Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Cataract. Send for testimonial cards, free.

SILVER OR GOLD.

The Santa Fe Railway system has a branch line which runs from Rincon, New Mexico, to Guaymas, Old Mexico. The company pays its section hands in both countries at the uniform rate of \$1 a day. But its American sections are twice as expensive to maintain as its Mexican sections. Why? When the paymaster starts out on his monthly round he puts we will say \$1,500 in United States money in his box. One thousand dollars of this money he pays to one thousand American laborers in New Mexico and Arizona. When he crosses the Mexican boundary he changes the remaining \$500 into 1,000 Mexican dollars, with which he pays one thousand Mexican laborers. On Sundays the men frequently cross the line. When the Mexican comes over to Arizona he finds that the dollar which he received for a day's work is only fifty cents in "spending money." On the other hand, when his fellow-laborer from the states crosses the line he receives two Mexican dollars for his one dollar Uncle Sam's money. And it must not be forgotten that Mexico is a Free Silver country. That's what the "cranks" want to make the United States. How do you like it, laboring man?

MEXICAN SILVER DOLLARS.

THEY FURNISH AN OBJECT LESS, SOY DOWN SOUTH.

"The residents of Greensboro, N. C. have been given an object lesson in Free Silver recently," said W. N. White, a Mechanical Engineer of Cincinnati to The Commercial Tribune. "My business takes me to all sections of the country, and recently I have spent a good deal of time in the South. I arrived in Greensboro in the midst of their object lesson, and some of the comments thereon which I heard would not look well in print. "Greensboro is one of the old towns in the Northern part of the Tar Heel State which has taken on new life in the last few years by the introduction of Northern capital and energy. The Cone Export Company, controlled by C. H. & J. H. Cone of New York, the resident manager being an old Philadelphian, is the proprietor of three large Cotton Mills at Greensboro, known as the Proximity, Hucamuga and Finishing Mills.

"All that section of North Carolina has simply gone mad on the subject of Free Silver, and to the intelligent man, some of the ideas the people hold are ridiculous, and were in not for the sincerity and earnestness of the people holding them, they would be ridiculous. Why, they have had 'Free Silver at 16 to 1' preached to them by a lot of demagogues until many, and very many, too, of the people think Free Silver means that the Government is going to make a lot of silver money and give it to them free, and when their supply is all gone, all they have to do is to go after more of it. In their ignorance they never stop to consider that if this money was given out free the merchant and banker and cotton mill owner would get just as much of it as the farmer and laborer and cotton mill employee.

"Down in Brush county, North Carolina, I had a typical mountain farmer hold out three silver dollars in his hand in explaining the scheme to me, and say: 'You see, mister, I'll get sixteen to one for these three shiners; that'll give me forty-eight dollars; then I'll buy another mill.' "It had not occurred to him that if it took \$48 to buy a good mule now the price of the mule would advance sixteen times if the currency was inflated to sixteen times its present volume. He actually thought that money would just be poured out practically free, and yet the prices of articles would remain the same. And the silver demagogues are doing all they can to encourage just such silly ideas.

"Well, to try to check some of these wild and wonderful ideas of the results of free coinage the Cone Export Company concluded to give the people an object lesson in Free Silver. Accordingly, they procured a lot of Mexican silver dollars, and when pay day came at the mills every employee was paid off in Mexican silver dollars, and to make each man's wages as solid as old cheese (you see

it would not do to say as good as gold), the company gave two Mexican silver dollars for every one dollar due the employee. In other words, if an operator had \$7 due him, he was given fourteen Mexican silver dollars.

"The way in which the people accepted the Mexican silver dollars and the comments thereon were something wonderful. Some thought 'dave coinage done gone come sure 'nough,' but instead of 16 to 1, it was only two to one, and they were terribly disappointed. Others were suspicious of the coin, but they felt reassured by the quantity, and so accepted it. A few would not receive the Mexican dollars at all, but were most violent in their demands for two United States silver dollars for every dollar due them.

REAL OBJECT LESSON.
"But the real 'object lesson' came when the people went to the stores at night and began their trading and settlement of store bills. A very few merchants, to be consistent with their advocacy of free coinage, accepted the Mexican dollars at first at their face value, but they were soon so overrun with them that they had to stop taking them. The best-informed merchants immediately posted notices saying that no Mexican dollars would be received.

"Others attempted to accept them at their proper value of 54 cents, but the attempts to discount them resulted in angry arguments, as no explanation would satisfy the holder that he was not being swindled out of half his money when the proper discount was proposed.

"This state of affairs continued for some days, and the expression of the shopkeepers can best be described as Artemus Ward described his courtship, by inserting a line which read: "Notis to the Printer—Put some stars here."

"I left Greensboro while the object lesson was still before the people, and I do not know the final results. I noticed, however, that the newspapers of the state, which are practically all for Free Silver, handled the matter very sparingly. The Greensboro papers merely referred to it, and The Raleigh News and Observer, the leading paper in the state, only gave it a beggarly mention. It was such an object lesson that they were not anxious to have it repeated in other parts of the state."

SAM'S SOLID SENSE.

The Rev. Sam Jones Has An Opinion of Newspapers.

Sam Jones says: "If I want to get a right square judgment I'd rather go into a newspaper office than a court of justice. No man whose life is true, pure and just is afraid of all the newspaper presses in America. They are the best detective force in the country today. They have punctured more shams, and as far as I'm concerned I say take the bribe off and let 'em go. The shams and the frauds. And if you think the newspapers print too much of a sensational kind don't you read it, as they will quit printing it. The papers need to be reformed, but the people have got to reform first. Newspapers are printed for money and to suit their patrons. If you don't think they are run on a high moral platform like Baroum's dress, just reform yourselves and the papers will follow suit.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhea Remedy was used with perfect success. Dysentery, when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of most skilled physicians have failed to check its ravages, this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. LOST AGAIN.

The Indians Defeat Mayville in a Slow Game.

There is something wrong with the Mayville team at Knoxville. A team that shut out the Indians once on their own grounds and once on the Mayville grounds, and a team that fairly "killed" Miller and McDonald, now at their mercy, is something we fail to see through.

Thursday's game was one that could have been beaten by the boys of Hunter's Park, the Kurnels piling up 8 errors instead of that many runs, while the Indians only had 4, which is bad enough to say the least.

But yesterday's game is one the lads should feel exceedingly proud of. McDonald pitched for the Indians, and the Kurnels only hit him safely five times, when in the opening game in this city they hit safely that many times in one inning, and in two innings sent him clear out of the game. It isn't reasonable to suppose that he has improved that much since he was "dumped" here.

Shepard, our new pitcher, was in the points for the Kurnels, and he did well for the first time in four weeks, the Indians only hitting him safely five times, and had he the support he deserved the score would not have been—

Knoxville, 3; Mayville, 1.

There isn't the slightest excuse for the Indians ever winning a game.

In the name of common sense, will some one please tell us what we want with a losing club?

What we do want is a club that will win every time, and that's what we now have if they will only play little.

The thing that's needed is for the Manager to shorten the rope a little.

NOTES.

The Colonels will meet our Kurnels at the Mayville Park August 10th.

The Lexington team is now one of the best amateur organizations in the state, and they keep on basking it better.

In the first game at Knoxville Newton got a three-base, a two-base and a single in three times at the bat, while Jimmie Curle had four errors on third.

Newton is unfortunate. Every game he has pitched this season should have been a shutout, but just as he has the game clinched some one makes a rank error and he is in a run.

Catcher Dexter of the Louisville team thought he had thrown Cross out at second, and when Betts declared him safe he knelt down at the plate and prayed in holy terror. His suppliant attitude cost him \$10. Betts must be a heathen, as well as a bad umpire.

The Knoxville Daily Journal, in no ting the first game, says:

"About a thousand people witnessed the exciting game with Mayville at Baldwin Park yesterday afternoon. The crowd was disappointed at not seeing Nicklin, as he is a universal favorite. About three hundred ladies were present to see the Local go down in defeat by a score of 4 to 1.

"The local team was outplayed at every point from the opening of the game and the visitors had it all their own way. The locals made several costly errors during the game but without these the locals would not have won. "Miller pitched a star game but his support was rotten and enough to make any man give up in despair.

"Newton pitched an excellent game until the eighth when he was overcome by the heat and Sammy Lever was called into the box for the two innings. Newton had speed to burn and he gave up only five hits in seven innings. Lever pitched two innings, giving up one hit and striking out four out of six men up. "The Indians drew blanks until the seventh when Hempleman made three bases on an error of Curle in the eighth and scored on a single by Miller. This was the last time they saw the home plate."

The doctor may be a good old man, but even so, medical examinations and the "local-applcation" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice is competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Perce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Perce's Favorite Prescription, a remedy for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It cures every form of "female weakness."

THE GREAT QUESTION IS WHY?

TRAXEL'S Bread and Cakes are the best! For the reason that he knows how to make them. Other makes of Bread would be just as good if made right, but it happens that they do not.

TRAXEL knows how to make good Ice Cream, too—Brick or any kind you want.

At Ruggles Campgrounds!

The meetings on these beautiful and much improved grounds will begin beginning July 15th and close August 15th. Ernest Dwyer will be present. Rev. A. B. Leonard of Ashland, and Rev. J. H. Leonard of Cincinnati and Rev. M. Swannick of Cincinnati and the Minister of the Evangelical Church of Ashland are expected to be present. The singing will be done by the choir of Ashland, assisted by a splendid choir, which is an assurance that the music will be all that could be desired. The Tabernacle has been enlarged, and now contains a hall with porches all around, making accommodations for all new comers. The grounds are beautiful, and best of all there is an abundance of pure water—two miles distant from the one of which is 120 feet deep, the water of which we have had analyzed and found to be of the highest medicinal properties. Total solids, 34 to the liter; chlorides and sulphates of magnesium, sodium and calcium, insoluble matter, 14 to the liter; consisting of calcium carbonates with traces of iron.

SPECIAL DAYS.
Evensong and Junior League days July 15th and 16th. Earnest workers of the District will be present.
Old Soldiers' Day August 4th, addressed by Rev. W. H. Jones of Cincinnati.
Temperance Day August 10th, addressed by Rev. George W. Young of Richmond, Ky., and Rev. G. H. Bradford of Cincinnati.
The meetings will be in charge of Rev. H. K. Frenger and J. G. Dover, Presiding Elders of the Evangelical Church of Ashland. Any one desiring tickets write I. M. LANE, Mayville, Ky.

KENTUCKY NEWS.

The Latest News From All Parts of the Commonwealth.

HE WILL GO UP.

S. A. Sherwood Arrested Thirteen Times. LEXINGTON, Ky., Aug. 1.—L. A. Sherwood, the alleged Illinois burglar, held here awaiting requisition papers from the governor of Illinois, was in court for the thirteenth time Friday afternoon. The calendar of charges has been exhausted, and, unless no mistakes are made this time, it is probable that Sherwood will not be taken back. He is now held on the charge of forgery, having, it is alleged, secured a license to marry his second wife, the name of Aver L. Sherman, and having changed the name himself when the woman refused to marry him under the false name. Errors were made in the first set of requisition papers and another is being secured. His case was continued till Tuesday.

PLUCKY GIRL.

Leaves Home Rather Than Marry Without Love. NICHOLASVILLE, Ky., Aug. 1.—Miss Myrtle Simpson is a 16-year-old daughter of Mrs. Simpson, of Stone, Garrard county. She is pretty and in love with Rev. Wm. Waldron. To avoid being forced into a marriage with a man named Clara she does not love she left home, friends and family.

Friday morning her father and brothers were away at work and her mother was visiting a neighbor. The girl mounted a spirited young horse, and, with a friend, started on her journey, a distance of 50 miles to this place, where she took the midnight train for Dallas, Texas, where her aunt lives.

ENTITLED TO FEES.

Decision at Frankfort in State Auditor's Mandamus. FRANKFORT, Ky., Aug. 1.—Judge Cantrell Friday morning decided the mandamus case of Judge Thompson, of Louisville, against the state auditor. The effect of the decision is that police judges are entitled to fees of two dollars in each felony case tried before them, and not a maximum of four dollars per day, as contended by Auditor Stone. The case will be appealed.

GIVES IT UP.

After a Four Month Seize in Jail. FRANKFORT, Ky., Aug. 1.—Judge Cantrell, of the local circuit court, Friday summoned a special grand jury to take the testimony of Alonzo Gardner, who has been confined in jail four months for refusing to testify in regard to gambling. A jury of prominent business men and church members has been impaneled and a raft of indictments will be issued.

In Green Pastures.

VANCOUVER, B. C., Aug. 1.—The West Virginia conference of the Church of Christ, of that denomination, today called at the opera house, this city, Friday morning. There are probably fifty elders present, including President Elias Kimball, of Chattanooga, Tenn., who will preside. It will continue in session for three days. All the citizens have been invited to the conference. The county has been invaded by the elders of that religion during the past year, and a great many conversions have been made.

No More Whiskies.

LOUISVILLE, Ky., Aug. 1.—Whiskey making in Kentucky will be almost totally suspended Saturday for a period of 15 months. The committee appointed at a meeting of Kentucky distillers on July 10 to bring about a suspension of distilling, today announced that they assigned all the flour and barley distilleries in the 12½ per cent. alcoholment provision for July.

Served Him Right.

BEREA, Aug. 1.—At Broadhead, 12 miles west of here, Kilo Luncie, became licensed at a remark made by Hope Tharp, and, drawing his pistol, fired at Tharp five times, missing his friend. Tharp pointed upon him with a rock and beat his head almost to a jelly. He will die.

Lockjaw Feared.

GREENEVILLE, Ky., Aug. 1.—Will Archib, who has been visiting his brother-in-law, John Yates, near Vancouver, B. C., accidentally shot himself in the leg Friday. He refused to allow a surgeon to operate on him, and fears of lockjaw are entertained.

Governor's Private Secretary.

FRANKFORT, Ky., Aug. 1.—Fred H. Roberts, formerly editor of the Owensboro Tribune, Friday assumed the duties of private secretary to Gov. Bradley. He succeeds Louis H. Dolson, who had been serving temporarily in that capacity.

Railroad Change.

LOUISVILLE, Ky., Aug. 1.—The Illinois Central Friday night took charge of its new purchase, the Chicago, Ohio & Northwestern railroad. It will be known as the Louisville division of the Illinois Central.

Terms Fixed Here.

LAWRENCEBURG, Ky., Aug. 1.—Al Wheat was feeding a threshing machine in Shelby county when a big rock thrown against his left eye, the ball being burst and his skull fractured.

Labor Day.

FRANKFORT, Ky., Aug. 1.—Gov. Bradley issued a proclamation Friday fixing the first Monday in September for Labor day, and requesting that the day be observed as a holiday.

It takes a business man to describe a commerce, after seeing a very taking dress on a very taking young lady recently, informed the partner of his joys that "It was I. The dress was made of some kind of cloth, with some sort of trimming. It was sorter like, or shirrip pink in color, and had a few white spots or bawges that was in desirable. She wore one of those hats you sometimes see on women, and altogether gave an object that I wish you could have seen."

OLD RUMORS

Regarding the Queen of England Again Revived.

Will She Abdicade the Throne is the Question
